Smart Solutions Strong Relationships

**Electronic Drives, Gear Boxes, VFD
Electric Motors at The Sales off Industrial Automation**

**A WORLD OF POSSIBILITIES
FOR ANY MOTION**

AK Engineering Works

COMPACT GEAR MOTORS AND REDUCERS

- ➔ For Reduce Input Speed and Increase the output torque
Consists of Gear Shaft
- ➔ Used in SPM Machinery, Vehicles and industrial equipment
to adopt powers

GEARBOX

- ➔ A Enclosed Mechanical Devices that use. Gear
Train to Enhance, The Torque and speed
- ➔ Used in conveyor, mixture, Blender & various
application at require of high torque

COUPLINGS & RUBBER BUSHES

- ➔ For Connecting components.
- ➔ Used in Drive to Driven Connecting
Significant reduction of vibration.

ROLLERS

- ➔ All Type of Rollers Facilities Available for
Paper Mill, Printing, Rolling Mill, Conveyor &
Automation

SENSORS

- ➔ Space Heaters, PT-100, RTD, BTD, Single Phase Preventer

Office: A-23, Sector 16, Noida, Near Canara Bank (Metro Station)

Workshop: A-92/1, 60 Foota Road, Radhey Shyam Tyagi Marg, Burari, Delhi-110084

+91 - 9999113110, 9871795457, www.akews.com Email: akengineering.wks@gmail.com

AK Engineering Works

INDUSTRIAL MOTORS

- For Operational & Rotating Purpose
AC-DC, LT-HT, SERVO, SYNCHRONOUS, MOTOR, SHUNT MOTOR
VIBRATOR, PMDC MOTOR etc.

BLOWERS

- Rotary Positive Displacement Twin Lobe & Tri Lobe
Compressor (Roots Blowers)
- Ring Blowers
- Spare & Accessories

VFD & PANELS

- Distributor of VARIABLE FREQUENCY Drive upto 400 HP.
(CG MAKE)
- All Types of Panel Ready as Rating LT & HT
Customization Facilities also available as per requirement

INDUSTRIAL CLUTCHES & BRAKES

- BRAKES :- Control Device that Stops a Moving Load, Regulates
Movement or Hold Load at Rest by Transforming
- CLUTCHES :- For control Devices that provide for energy
Transfer drive to driven
